Intent:

My wife - Sacha Urban, who is Swiss – introduced me to the Swiss Club of Chicago several years ago (at least 4 years ago.) We became members at the time in order to contribute to the Swiss culture here in Chicago (we are also members of the Swiss Benevolence Society) and enjoy the Swiss events that are sponsored by the club. Over the years, we have made great contacts, a few friends with whom we spend time outside of the club and had a tremendous amount of fun participating in the events hosted by the club.

I have been thinking, for a couple of years now of joining the board in order to give back and show additional support, but my commitments to other organizations would have prevented me from giving enough time and attention. I have now completed my various roles in leading other fraternal organizations, and after a well needed breather, I am eager to be an active supporter of the Swiss Club.

Although I do not have prior experience as a Treasurer, I have led several organizations, participated on the executive board when not leading and have a Master's in Finance. My varied positions during my decade plus of volunteering have allowed me to be very familiar with all aspects of supporting an organization – including the roles and responsibilities of a Treasurer (which I have had to unofficial cover throughout the years.)

I would very much like to support the Swiss Club by becoming its treasurer. I shall endeavor to do my best in that role and always work toward improving the club for the future members. I hope I have the support of the existing board members and am elected to this position.
